Excel Teller Touch Screen

Maximize your revenue and throughput without compromising quality. Our Excel Teller Touch Screen "Signature Series" is designed with all users in mind and it's easy to use. With our 7inch 1000 NIT HD Touch Screen technology, we can fully customize your wash to best suit your marketing needs.

Optional Chip and
Pin with Tap and Go

Exacta's Touch Screen "Signature Series" is designed for all automatic and tunnel wash applications. This Point of Sale Teller has the ability to be a stand alone unit capable of accepting bills, coins, credit cards, gift cards and fleet cards. It can also take codes, generate codes, give change and print receipts. Other options such as Remote Accounting with our E1 Terminal software allows you the ability to access your wash from anywhere around the world. Credit Card, Fleet Card, and Swipe & Save options are available. Combining these options will create a machine that will suit every customer's needs.

Standard Features

- 1 Bill Validator with the option to upgrade to a second
- Optional Bill recycling
- Up to three Coin Hoppers
- Dispense Vacuum Codes or Tokens
- Receipt Printer and Waterproof Card Swipe
- Built-in reporting with float tracking
- Detection Sensor
- Custom Voice Messaging
- 7 inch 1000 NIT Touch Screen fully customizable to suit your marketing needs
- Built-in Heater with fan
- Stainless Steel cabinet with fiberglass front which comes in multiple color selections
- Interfaces to all Automatics and Tunnel controllers
- Optional Image Package

BayMaster Self-Serve

Allow your customer to choose their method of payment with our BayMaster Self-Serve wash system. Now available with our 7 inch Touch Screen with many new marketing features.

Exacta's BayMaster system is designed for self-serve car wash applications. By placing this unit in each of the bays, your carwash will have the ability to accept coins, bills, credit cards, gift cards, fleet cards and discount codes. The Credit Card count up feature allows customers to simply swipe their card and wash

Standard Features

- Touch Screen 7 Inch (Signature Series)
- 14 Wash Select Button (Standard BayMaster)
- Back-lit LCD Screen with Large Time Display Capability
- Numeric Keypad for Entering Fleet Codes
- Maximum Time Configured for Each Bay
- Audible One-Minute Warning
- Time-per-coin Configured for Each Bay
- Each BayMaster Operates Independently
- Each BayMaster will Accept Coins Without the POS
- Supports Connection to Large External Displays
- Compatible with Most Coin Vacuum Systems
- Waterproof Card Reader for Fleet or Credit Cards
- Smart Credit Card Processing Minimizing Charges to Car Wash

Optional Features

- Optional Bill Acceptor
- Custom Fleet Card Package
- Credit Card Receipts can be printed from PayMaster, Receipt Printer or Series IV
- High Security Coin Drawers

BayMaster Retro Card & Code

Upgrade your existing site and maximize your revenue by adding credit card to your Self Serve bays.

Increase your sales by putting a credit card / fleet card reader directly into the bay. The count up feature of the BayMaster Retro credit card system allows customers to wash until their car is clean instead of watching the clock. The screen shows the customer how much time they have used, and gives useful help information. The numeric keypad can be used to enter discount codes, fixed time codes, fleet codes and pay at the pump codes.

Standard Features

- Simple to use – just swipe your card or enter a code to activate
- Count up feature allows customers to wash until their car is clean
- Takes all major credit cards and custom fleet cards
- Activate multiple bays at one time with the same card
- Credit cards are only charged once to minimize transaction charges
- Easy to install into existing bays
- Includes the 5 Easy Step sign
- Works with Prepaid Cards, Gift Cards and Post Pay Cards
- Tracks when the card was used and for how long
- Limited cards or codes can be set up for staff to do bay cleaning
- Optional coin monitoring with reporting
- When doing coin control, the unit will act as your bay timer with adjustable minimum to start, grace timer and 30 second warning

PayMaster Marketing Center

Take control of your car wash before it takes control of you. Exacta's PayMaster is your personal 24/7 salesman. Designed to provide change and market your car wash needs. Have the ability to customize with strategic marketing that suits your needs.

Optional Chip and
Pin with Tap and Go

Exacta's PayMaster system is designed for the self-serve car wash and/or a wall mounted change maker. This unit has the capability to monitor all of your bay counts, coins, and usage and eliminates the need for additional change makers. The PayMaster can also be used to integrate your automatic and self-serve bays and create a single report for accounting and monitoring purposes from one central Exacta point of sale. An optional Gift Card Dispenser can be added internally, and has the ability to do programmable bonuses.

Standard Features:

- 7 Inch 1000 NIT Touch Screen or Back-lit 4 Line by 20 Character LCD Screen
- Sell Vacuum Codes, RIFD and Gift cards direct 24/7
- Two Bill Validators & Up To 3 Change Hoppers
- Receipt Printer and Waterproof Card Swipe
- Built in reporting with float tracking
- Add money to gift cards using credit card or bills
- Detection Sensor
- Custom Voice Messaging & Microphone to change messages
- Back-lit 4 Line by 20 Character LCD Screen
- Built-in Heater with fan
- Stainless Steel cabinet with fiberglass front which comes in multiple color selections

Receipt Printer & Card Dispenser

Help maximize your return of investment with our Receipt Printer and Card Dispenser, and sell gift cards direct to customers.

The Receipt Printer is designed for the self-serve car wash as a wall mounted Credit Card Receipt Printer. This unit can also be used to print the balance on Fleet cards and Gift cards as well as add money to Gift cards. An optional card dispenser can be added to sell gift cards.

Standard Features:

- Large 4×20 Back-lit LCD Screen
- Accepts Credit Cards, Gift Cards, and Fleet Cards
- Designed for outdoor use with built-in heater and fan
- Stainless Steel Enclosure
- Thermal printer with 7 1/2″ diameter paper roll
- Add an optional card dispenser to the side to sell gift cards
- Add money to existing gift cards with programmable discounts

Chip and Pin

Upgrade your existing site and maximize your revenue by adding EMV Chip and Pin with Tap and Go.

TAP & GO

EMV

Chip & PIN

We are certified and ready to roll out the next generation of EMV Chip and Pin with Tap and Go for car washing. This includes Canadian Interac Debit.

PayMaster Standard Features:

- **Gift Cards**
- **Wash Books**
- **RFID Monthly Memberships**
- **Vacuum Codes**
- **Wash Codes**
- **Provide change & Receipts**
- **Optional EMV Chip & Pin and Tap & Go**

RFID & Custom Tags

Customer Benefits

Less Hassle – no fumbling for coins or cards to slow down processing.   Quick selection for Prepay, Post Pay or Monthly Membership / Subscription Customers.   Easy access 24 hours a day. Date, time and use restrictions can be applied to any tag. The software automatically tracks when, where and what the customer received.

Why RFID?

RFID tags attach directly to the windshield of the vehicle and self destruct if they are removed.

Where Can They Be Used

The Exact One RFID system can be used with Express Tunnels, In Bay Automatics and even Self Serve bays.

Standard Features

- Tamper proof self destructing tags

- Fixed or variable wash type selection

- Date, time and use restrictions

- Supports Monthly Membership / Subscription

- Prepay and Post Pay accounts

- 90 day or variable wash passes with activation on first use

- Multiport Reader supporting up to 4 bays per reader

- Can link to any Manufactures Wash

Exacta Series IV / VIII Car Wash Controller

Simple Operation, Sophisticated Security, Diversified Marketing Capabilities. Experience the remarkable power packed into this modest console!

The Exacta Series IV / VIII Car Wash Controller acts as the central storage point for all credit card, wash code and fleet account transactions. This computer will work with any combination of Self-Serve Bays, In Bay Automatics, Vacuums and Vendors. It acts as the central hub for all transactions, reports and printing of invoices. It works with Exact One's complete product line including BayMasters, PayMasters, Excels, Receipt Printers and BayMaster Retros.

Standard Features

- Built-in credit card clearing with black list
- Includes 2000 Fleet accounts with date and time tracking, expandable to 6000.
- Works with Prepay (Gift Cards) and Post Pay Fleet Cards
- Tracks when, where and for how long the card was used
- Industrial hardened with no fans or openings
- Connects to a PC by RS232, Modem or internet connection
- Add a card reader for easy fleet account set up
- Add a printer to print reports, receipts and invoices
- Includes Pay at the Pump / Cash Register link
- Credit card clearing via internet
- Optional internet connection for reporting, programming and diagnostics with E1 terminal

Remote POS

Connect up to seven remote POS units to sell codes at other locations.
